PROFILE

Innovative Software Engineer with a strong foundation in programming and problem solving. Experienced in Backend Development with little bit of Frontend knowledge. Proven ability to design and implement scalable, efficient softwares. Passionate about staying up to date with the emerging technologies. Easily collaborate with cross-functional teams

WORK EXPERIENCE

Senior Software Engineer

Mphasis Limited | Full-time | Bengaluru
June 2024 - present

Software Engineer

Mphasis Limited | Full-time | Bengaluru
June 2022 - Jun 2024

SKILLS

- Java
- Spring Boot
- Microservices
- Backend Web Development
- PostgreSQL
- Jenkins, Postman
- Salesforce Apex, triggers, flows, LWC

PROJECTS & CONTRIBUTIONS

Project Name: Trail (Inventory Management)

An invoice and inventory management Application. I am a **Backend Web Developer** in that project.

Technologies used: **Java, Spring Boot, PostgreSQL, Postman**

I developed the entire backend for the Trail project for **HPE** from scratch, resulting in a significant improvement in application efficiency—over **90%** more efficient than manual Excel sheet entry, which previously made inventory tracking nearly impossible. The solution streamlined inventory management and enhanced data entry speed by implementing reusable components.

I have trained and examined **5** people on postgresql as requested by my manager.

EDUCATION

**COLLEGE OF
ENGINEERING GUINDY,
ANNA UNIVERSITY**

B.E., ECE 2018-2022

CGPA: 7.9

12TH GRADE

**KRP MATRICULATION
SCHOOL**

2017-2018

PERCENTAGE: 97.4

LANGUAGES

1.English

2.Tamil

ACHIEVEMENTS

1. Secured school 3rd in HSC board exam

2."Pic of the day" 1st place awardee in an inter-college cultural

INTERESTS

1.Badminton

2.Following stock market
